REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the specific limitations of the opening/closing member is made of an elastic member and the elastic member is provided between a pair of operating pieces defining the operating member and arranged to diagonally cross a direction connecting the bases of the binding rings secured to the operating pieces at a distance so as to move the pair of operating pieces in directions opposite to each other and to maintain an open/closed state of the binding rings are not anticipated or made obvious over the prior art of record in the examiner's opinion.

For example 2,715,906 discloses binding rings (4b,5b), holding member (19,20), operating member (3) including operating pieces (4,5) and an opening/closing member (spring 15), as claimed. '906 does not however disclose the elastic member provided between a pair of operating pieces defining the operating member and arranged diagonally across a direction connecting the bases of the binding rings as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
